

Good from Far

Lime Cordiale

I know this is just a bit of fun for you
But I don't want to play around, at all
There might be other things going on
But it's just you and me to settle down, at night

You call me up, and you set it out
But you just let me down, but you just let me do
All I want is you to let it out, yeah, let it out
Just let it out

You're good from far, but it's far from good
You're good from far, but it's far from good

I've had my foot in its dust for weeks, yeah
[?]
I'm feeling sick, well, not divine (yeah)
And I don't exist just to look down, tonight

[?], inside the frame
Girl you've got me saying, so you've got me so
If I had [?], would I let them show, would I let them show

You're good from far, but it's far from good
You're good from far, but it's far from good
You're good from far, but it's far from good
You're good from far, but it's far from good

Yahhhh!

I know this is just a bit of fun for you

You're good from far, but it's far from good
You're good from far, but it's far from good
You're good from far, but it's far from good
You're good from far, but it's far from good
