

# Imposter Syndrome

Lime Cordiale

I paid a visit to my therapist  
I say my problems, he gets paid  
He tells me that it's all irrelevant  
"Just do like I do, smile and wave"

You think you're perfect  
Nobody's perfect  
You think your shit don't stink?  
Think again  
Life of the party  
Gotta smile for everybody  
Putting on a show that never ends

I'm living with imposter syndrome  
I'm just a colossal freak show  
Lucky you see me through frosted windows  
A layer of makeup that I just can't take off

Wise guy told me I'm intelligent  
That makes him an idiot, an idiot too  
Lies, lies, lies that we tell ourselves  
Reality is we fake it 'til we make it true

You think you're perfect  
Nobody's perfect  
You think your shit don't stink?  
Think again  
Life of the party  
Gotta smile for everybody  
Putting on a show that never ends

I'm living with imposter syndrome  
I'm just a colossal freak show  
Lucky you see me through frosted windows  
A layer of makeup that I just can't take off  
Imposter syndrome  
I'm just a colossal freak show  
Lucky you got frosted windows  
A phony, a faker, leave it or take it

I'm living with it  
I'm living with it  
I'm living with it  
I'm living with it

You think you're perfect  
Nobody's perfect  
You think your shit don't stink?  
Think again  
You think you're perfect  
Nobody's perfect  
You think your shit don't stink?  
Ha, think again
