

Love Is Off The Table

Lime Cordiale

Wish I was grateful
I'm not feeling great, got your plateful
Guess I'm not your taste, back in April
You said I'm all you need, now it's late June
And it's winter here for me

Yeah, all the good types
Can't deal with all the goodbyes
Every question she replies
With the answer of a lifetime

Love, love is off
Love, love is off the table
Love, love is off
Love, love is off the table
You moved on in record time
Shaky legs, you know that I'm unstable
I guess that
Love, love is off
Love, love is off the table

Sing your praises
Stare at the name I can't delete
Scrub your pages
Cleared all history of me
It's fucking outrageous
I'm in pieces, not in peace
Have you found a replacement?
Is someone sitting in my seat?

The good types
Can't deal with all the goodbyes
Every question she replies
No inch of compromise
Wish good girls could lie
Quit giving all the goodbyes
Every question she replies
With the answer of a lifetime

Love, love is off
Love, love is off the table
Love, love is off
Love, love is off the table
You moved on in record time
Shaky legs, you know that I'm unstable
I guess that
Love, love is off
Love, love is off the table
