

Make Your Mind Up

Lime Cordiale

Wake up, before it's time
Out to get your head in the game
Before it's about to explode
From thinking about the girl on the other side
That's swinging in your direction

I think it is [?] but I don't know
'Cause I don't know geography
'Cause it's hard
When you answer a question to do
When you ain't got a clue

Yo
Me and the boys, we were just chilling
But I got up first 'cause my ass was killing
I said to these guys and Louis, hey
Let's go for a swim in Elizabeth bay
But first I gotta go to the seven day [?]
'Cause I'm in a bit of a Slurpee mood
I got five bucks from my dear old mother
I kissed her on the cheek and I left with my brother
So have a good night and enjoy the show
If you want some more I could give it a go
Looking around I can see some sweet ladies
After the show we can make some sweet babies

'Cause it's too late girl
And it's too late boy
Make your mind up girl
Before it's too late boy
Make your mind up girl
Before it's too late boy
And it's too late girl
Before it's too late boy

Hey, pretty lady
Thinking about you, baby
Yeah, pretty lady
Hey, pretty lady
Thinking about you, baby
Yeah, pretty lady
Yeah

And it's too late girl
Before it's too late boy
Make your mind up girl
Before it's too late boy
Make your mind up girl
Before it's too late boy
And it's too late girl
Before it's too late boy
