Lime Cordiale

A quick fix, it tastes great
By my God doesn't it make space
In my wallet only got loose change
How many times will I hit my snooze again

This fire's gonna burn
You're gonna make me turn
Naturally, naturally
It'll take a little time
But I'm gonna make you mine
Naturally, naturally

(Naturally)
Naturally, naturally
(Naturally)
Naturally, naturally

Your words, they're all straight
By my God you spin it in your ways
And my jacket's always covered in stains
I'll pick you up in my old rust bucket again

This fire's gonna burn
You're gonna make me turn
Naturally, naturally
It'll take a little time
But I'm gonna make you mine
Naturally, naturally

(Naturally)
Naturally, naturally
(Naturally)
Naturally, naturally

(Naturally)
Naturally, naturally
(Naturally)
Naturally, naturally

This fire's gonna burn
You're gonna make me turn
Naturally, naturally
It'll take a little time
But I'm gonna make you mine
Naturally, naturally

Naturally, naturally
(Naturally)

Naturally, naturally
