

# Reality Check Please

Lime Cordiale

Full swing, you come on in  
You're crashing and burning  
Like you trash your bins  
Every time I see you, I go blind

Damn straight, I got no clue  
Who is the psycho?  
Is it me or you?  
Can't you see the shame that's in their eyes?

Here's your tip  
Life ain't this

Can I have a reality check please?  
I'm trying to keep my sanity in check please  
If only clearing tables cleared my mind (My mind)  
Can I have a reality check please?  
I'm trying to keep my sanity in check please  
It's getting overcrowded here inside (Here inside)

Mind blank at what you said  
This conversation's gone over my head  
Don't give me that look when I spill wine

Eyes roll when you recite  
"Are we just crustaceans that can read and write?"  
Taking bathroom trips but I can't hide

Here's your tip  
Life ain't this

Can I have a reality check please?  
I'm trying to keep my sanity in check please  
If only clearing tables cleared my mind (My mind)  
Can I have a reality check please?

How am I meant to know what is happening?  
Feel like you're just sending me mad again  
How am I meant to know what is happening?  
Stuck in here just talking to mannequins  
Oh, I just don't know

Can I have a reality check please?  
I'm trying to keep my sanity in check  
If only clearing tables cleared my mind (Cleared my mind)
