

Sleeping At Your Door

Lime Cordiale

You got me thinking of you
But it ain't all that I do
You're pretty fine but gotta' know there's other girls that I'd
do
Don't like to limit myself
I tried again when I fell
Take precious time from precious time and then you die when you
're well
What letters do you wanna' spell
They fit together so well
I feel like every time I'm trying to impress you can tell
I have a little night out
The cab to you brought me down
I painted on a different face and then walked in with a frown

Not gonna' wait
I'm not sleeping at your door
Won't go away
To find out what's in store
Not gonna' wait
Just don't fuck me around at all

I know you're older than me
Two years approximately
But you want older men with no Lobito sexually
You say what I should have done
And then you stopped having fun
The years aren't many but you're settled and you wanna' have on
e
And yes I could settle down
I've got my head on the ground
I could contribute to a kitty if you want me around
I'll go with your this and that
Aware of what I look at
We're going uphill but it's down I want to stay on the flat

Not gonna' wait
I'm not sleeping at your door
Won't go away
To find out what's in store
Not gonna' wait
I'm not sleeping at your door
Not gonna' wait
Just don't fuck me around at all
