

# Spider Legs

Lime Cordiale

Feeling something crawling up my back  
Unexpected but I don't mind that  
Creeping through my windows  
Crawling up the walls  
You're taking all my time and then heading out the door

Hide your fire cause you want it black  
This one caught me then it put me back  
Locking up the back door  
Greasing up the walls  
Taking all my whisky and I wake up on the floor

You want this everytime  
And I want you to want this anytime  
But I need to have my lonely time  
And I'm not one of those lonely guys

One of many spiders swallowed on your sleep  
I'm not complaining when it comes this cheap  
You never have to worry  
There's more for you to do  
You were hanging by a thread but now I see that's the way you like to move

You want this everytime  
And I want you to want this anytime  
But I need to have my lonely time  
And I'm not one of those lonely guys  
You want this everytime  
And I want you to want this anytime  
But I need to have my lonely time  
And I'm not one of those lonely guys

Yeah let me be on my own  
You've only been pulling me back  
Let me on my own  
You've always been pulling me down

Creeping through my window  
Crawling up the walls  
Taking all my time and then heading out the door  
Creeping through my window  
Crawling up the walls  
Taking all my time and then heading out the door

You want this everytime  
And I want you to want this anytime  
But I need to have my lonely time  
And I'm not one of those lonely guys
