

Temper Temper

Lime Cordiale

Red wine like blood on the carpet
Cigarettes burn holes where my heart is
Temper, temper, you know that that's what I like
You're just doing what you do for reaction
I don't like kiss and tell you can trash it
Temper, temper, you know that that's what I like

Used to fancy everybody
I'm the one to say you're sorry
I know, we're wrong
But you're not round for long

I only like you when you're leaving
I only like you when you're leaving
I only like you when you're leaving
I only love you when you're gone

Watching television crash on the pavement
Push and pull, yeah that's our arrangement
Temper, temper, baby you do what you like
Razor blades on your tongue I can taste it
Forgetting me with a permanent vacation
Temper, temper, baby you do what you like

You start fights with everybody
I'm the one to say you're sorry
I know, we're wrong
But you're not round for long

I only like you when you're leaving
I only like you when you're leaving
I only like you when you're leaving
I only love you when you're gone

I know we're wrong
But I don't mind a little suckle
Temper mmm
I know we're wrong
But I don't mind a little suckle
Temper, temper

I only like you when you're leaving
I only like you when you're leaving
I only like you when you're leaving
I only love you when you're gone
I only like you when you're leaving
I only like you when you're leaving
I only like you when you're leaving
I only love you when you're gone
