

The Farm

Lime Cordiale

Driving up the coast to a house near the beach
Watching gals through the window from my seat
Riding horses and driving cars
Serving all day to come back 'for dark
I'm swimming in a dam that is next to the house
I'm driving with my friends to find other gals

All the coarse friends and family
We're at the farm where we love to be
Finding jackbombs and coconuts
They at the farm that we love so much
Eating [?] and palm coconut
They at the farm that we love so much

I'm eating pies and i'm drinking palm coconut
I'm watching Billy Joel and those jiggy boobs
[?] his momma says
We seen what he done but we don't tell

All the coarse friends and family
We're at the farm where we love to be
Finding jackbombs and coconuts
They at the farm that we love so much
Eating [?] and palm coconut
They at the farm that we love so much

There's a place
There's a place we know
There's a place and it gives us hope
There's a place
There's a place we know
There's a place and it gives us hope
Up the coast
Up the coast somewhere
There's a place and it gives us hope
There's a place
There's a place we know
There's a place and it gives us hope
There's a place
There's a place we know
