

# Ticks Me Off

Lime Cordiale

Talk while looking over  
Over my shoulder  
That's considered rude  
Like your Mumma once told ya  
Give an empty gesture  
Lovely suggestion  
So that's okay with you  
If I stay in your guest room

Lengthy conversations  
Of everywhere you've been  
Don't you know that actors  
Are not that attractive  
It could have lasted  
You're tripping acid  
So that's ok with you  
When you're treating me nasty

Whatever happened last night  
When I was in the room

That really ticks me off  
Oh, that really ticks me off  
Yeah, that really ticks me off  
Oh, that really ticks me off  
Yeah, that really ticks me off

And if we're talking about me  
We're talking around it  
I'm always irritated  
'Cause you're beautifully jaded  
Protesting an issue  
That doesn't affect you  
Masculinity grew  
That time you turned down a tissue

Whatever happened last night  
Whatever happened last night  
When I was in the room

That really ticks me off  
Oh, that really ticks me off  
Yeah, that really ticks me off  
Oh, that really ticks me off  
Yeah, that really ticks me off

Whatever happened last night  
Whatever happened last night  
Whatever happened last night  
Whatever happened last night  
When I was in the room last night

Whatever happened last night  
When I was in the room last night  
Whatever happened last night  
You really caught me in a mood last night  
Whatever happened last night

When I was in the room  
Don't you know that you were rude last night  
Whatever happened last night  
I think we always knew we'd up in a feud last night

That really ticks me off  
(When I was in the room last night)  
Oh, that ticks me off  
(Whatever happened last night  
When I was in the room last night)  
That ticks me off  
(Whatever happened last night  
When I was in the room last night)  
Oh, that really ticks me off  
(Whatever happened last night  
You really caught me in a mood last night)  
That really ticks me off  
Yeah, that really ticks me off
