

# Underground

Lime Cordiale

My day slows down its over  
Hiding away not out but underground  
Can't see what's up ahead  
I'd rather be unknown  
To keep my face from turning red

I need to find  
A straighter face  
Instead I laugh  
It off again  
I need to find  
A straighter face  
Instead I laugh

Don't lead me down  
The wrong way  
I finally have found  
A straight face  
Don't lead me down  
The wrong way  
My good old buddy loneliness  
Come back again

Years going by  
Too fast to notice  
Makes more mistakes  
Can't change not over  
Proud of saying what I've said  
It keeps me wide awake  
Turning sweating in my bed

I need to find  
A straighter face  
Instead I laugh  
It off again  
I need to find  
A straighter face  
Instead I laugh

Don't lead me down  
The wrong way  
I finally have found  
A straight face  
Don't lead me down  
The wrong way  
My good old buddy loneliness  
Come back again

Don't lead me down  
The wrong way  
I finally have found it yeah  
A straight face  
Don't lead me down  
The wrong way  
My good old buddy loneliness  
Come back again

I need to find  
(I need to find)  
A straighter face  
(A straighter face)  
Instead I laugh  
(Instead I laugh)  
It off again  
(Off again)

I need to find  
(I need to find)  
A straighter face  
(A straighter face)  
Instead I laugh  
(Instead I laugh)  
It off again  
(Off again)

I need to find  
(I need to find)  
A straighter face  
(A straighter face)  
Instead I laugh

Don't lead me down  
The wrong way  
I finally have found  
A straight face  
Don't lead me down  
The wrong way  
My good old buddy loneliness  
Come back again

Don't lead me down  
The wrong way  
I finally have found it yeah  
A straight face  
Don't lead me down  
The wrong way  
My good old buddy loneliness  
Come back again

Down  
The wrong way  
I finally have found  
A straight face  
Down lead me down  
The wrong way  
My good old buddy loneliness  
He's back again
