

Dangerous

Limi

See you whisper
Can you tell
What I wanna hear
Say you're used to
Living fast but
Would you slow down for me
For just one night
Let's make it count
We got plenty of time
Yeah

Act like you mean it
Say that you'll be here
Until the light
Until the light, I
Got you believing
Chasing this feeling
Euphoria
Euphoria

Know you should be running
But you don't care
Never met nobody
Who could compare
Answer to my body
Like it's a prayer
Taking me there
Taking me there
You can waste my time
Addicted to the way you move across that line
Never knew that it was you I had to find
Keep me safe, yeah
Light the way like northern lights
Northern lights

Can you hold me like you need me
I wanna know
Boy you got me feeling greedy
And it's all your fault
Tryna keep me like it's easy
You just can't resist
It is what it is

I'll say it
Every time you touch me I feel dangerous
Running from this feeling but you crave it
Even though you know I'm not your baby
I'm not your baby

Oh you should be running
But you don't care
Never met nobody
Who could compare
Answer to my body
Like it's a prayer
Taking me there
Taking me there

You can waste my time
Addicted to the way you move across that line
Never knew that it was you I had to find
Keep me safe, yeah
Light the way like northern lights
Northern lights
