

I felt alive  
As long as you've been on my mind, yeah  
We cannot run  
Away from this feeling for long

Yeah  
I guess it just happened for us  
Written away in the stars  
'Cause I see myself in your eyes  
Ooh oh oh  
We can get lost in the dark  
Looking for sunrise all night  
I'm feeling my best in your arms  
Ooh oh oh

If I held you close to my heart  
And mended all of your scars  
If I risked it all for the night  
Baby, you and I could fall in love  
If I held you close to my heart  
And mended all of your scars  
If I risked it all for the night  
Baby, you and I could be a vibe

Ooh  
Know you hate it  
The time you wasted  
All the fake love  
Left you jaded  
They can't read your moves  
They're too basic  
They don't know the you that I've met  
I can make things feel alright  
Shut the world out for the night  
I know places we can hide  
Ooh ooh oh

I guess it just happened for us  
Written away in the stars  
'Cause I see myself in your eyes  
Ooh oh oh  
We can get lost in the dark  
Looking for sunrise all night  
I'm feeling my best in your arms  
Ooh oh oh

If I held you close to my heart  
And mended all of your scars  
If I risked it all for the night  
Baby, you and I could fall in love  
If I held you close to my heart  
And mended all of your scars  
If I risked it all for the night  
Baby, you and I could be a vibe  
Could be a vibe
