

I stay wanted  
They stay calling  
You say you've changed, but  
You still want it  
Got you on your knees  
Baby rest in peace  
If it's up to me  
I'd put you where you're meant to be

Got you obsessing now  
Counting your blessings now  
Know I can't stay around  
But I still hold you down  
Got the tension so high  
You can't sleep through the night  
Know you can't live without it  
You know I got your heart unlocked

Know you try to fight it  
Falling deeper by the  
Minute, day and night  
You can lie to me  
But it's on your mind  
Always numbing your feelings  
Coming down from the weekends  
Know I'll always make it right  
Yeah yeah

Tell me that you're mine  
Make it worth my time, yeah  
Want you to need me  
Like you believe me  
Say another lie  
Set my mind on fire  
Like you've never felt this high  
Yeah

So close  
Lost another one cause you're scared to get too close  
You keep running until you show up at my door  
Cause time with me is the time you're not alone, yeah  
I know you know that

Got you obsessing now  
Counting your blessings now  
Know I can't stay around  
But I still hold you down  
Got the tension so high  
You can't sleep through the night  
Know you can't live without it  
You know I got your heart unlocked
