

# Why

Limp Bizkit

**D**

It might take too long to turn the lights back on

**G**

I guess I lay awake, I guess I'll lay here and pray

**D**

Could you pour me one more drink? A glass of gasoline

Help me burn my pain, light me up in the rain

**A**

**H G**

My so-called life is so good

**D E G**

**D E G**

Why do we die?

**D E G**

**D E G**

Why do we die?

**D**

Slow down

You wonder how I've been, you ain't been checking in

Just hope my vital signs would send me home again

My baby's in the grass, Jesus on the dash

I drive myself insane just hoping I could stay

My so-called life is so good

Why do we die?

Why do we die?

Slow down

**H A**

**H A**

**H A H A**

Slow down, slow down, slow down, slow down

When deserts turn into floods, White orchids cover with mud

No magic carpet today, not today

Who takes the reigns when I'm gone disintegrate from my throne?

No magic carpet today, not today

Why do we die?

Why do we die?

Why do we die?

Why do we die?
