

Sweet & Sublime

L'Impératrice

Some people say that it's the price you pay
They take your pride and they throw it away
Fell from my nest, heavy weight on my chest
Call the HQ, get me out of this mess

I'm with the gang, don't say "what's up" to me
It's ill advised, we don't play, we cut ya deep
Uncivilised, but I save your live for free
That's alright with me, that's alright with me
Out of these villains, I'm the one that you'd like to meet
We roll deep, they don't even pick fights with me
The forecast changed up, we like the heat
That's why we winnin' every time despite defeat, ow!

You cannot be what you wanna be
You can just be whatever we please
Who even cares, you're a nobody
Knock on the door, now I see them freeze, oh

Everything stops and the temperature drops
See my sidekicks doing their magic tricks
"Head up high!"

Boo
Watch out for my gang
Bursting in, "bang, bang"
To our battle cry:
"Head up high!"

Boo
When we're together
Our superpower
Is to make our time sweet and sublime

Out of the ordinary, my gang rally for peace
A vigilante in a mask that ran in the streets
A villain for the people, the price you pay isn't cheap
This my ability, what I portray is a beast
It come in threes like a trilogy
Honesty, kind, immunity, vulnerable but unruly when I'm protecting my unity
And I don't even wear a cape
Jump in front a moving train, I don't play it safe
Baby we communicate, super power, gotta levitate
I don't feel ashamed, no debate, gotta tell 'em wait
Real or fake? I could chef a plate, we can set a date
My gang, big dog, your gang, featherweight
Cruising, we ain't gotta freeze time, make movements
Shake something, get funky, let's do this
So fast, free running, and I'm booted
Everything will stop if I'm clueless, hey
Be the prototype
My affiliation with you take a hold tonight
Save the club from Willie Green like Dolomite
Saying "sho' ya right"

Everything stops and the temperature drops
See my sidekicks doing their magic tricks
"Head up high!"

Boo
Watch out for my gang
Bursting in, "bang, bang"
To our battle cry:
"Head up high!"
Boo
When we're together
Our superpower
Is to make our time sweet and sublime
