

Call Me Mercy

Lin-Manuel Miranda

Chickens

Orphans scatter like chickens

Watch 'em all run away while the Warriors keep walkin'

Their heads held up high, high, high

Look at these women

Livin' just to live, out of fucks to give, women

Blowin' up the night, glowin' in the light, women

Walk away from this explosion in slow motion

I wanna go to the place where you're goin'

Let me escape in this moment

I'm born and raised on this corner of nowhere

Can I hold my head high?

High, I'll find my way where the train meets the station

I'll ride all night till the day comes

I'll leave behind desolation

Just call me mercy and take me away, hey

Hey, let me go to wherever you're going

I can be brave in the moment

I'll mix it up on the corner wherever and try

To hold my head high

High, take me away where the train meets the station

I'll ride all night till the day comes

I'll leave behind desolation

Just call me mercy and take me away

Take me away
