

# Going Down

Lin-Manuel Miranda

Can't you see? I'm havin' a good time!

Every stop on the map is a Pac-Man dot  
Yes indeed, don'tcha wanna eat every knot, knot, knot  
I was at the top of the screen when I took that shot  
Can you dig it? Well, dig her a plot  
Pop, pop

Now, let's play the game, spend every goddamn quarter  
Wow, little Ms. Pac-Man is tryin' to skip town  
I am the ghost and I'm hunting them down  
They're going down  
We're going down  
Nowhere but down

It's just so easy  
Cyrus dreamed of one big happy gang, gang, gang  
I said, "Wake up!" with one little bang, bang, bang  
I didn't come to make friends  
What?  
I came to make your dad shit his Depends  
Plop, plop

Some kids build with blocks  
More fun to knock them over  
I'm done kicking rocks  
Let's kick this town  
Watch the whole skyline come tumbling down  
It's going down  
Tumbling down  
Nothing but down

Light one match  
Don't be scared  
You just might watch the world burn  
Pull one trigger  
See the ripples get bigger  
Watch the world burn

Be a star  
Better yet, be a shooting star  
Pop, pop, pop, pop, pop  
Meet the Warriors right where they are  
'Cause they're still on foot but we got a car

Now they have to survive every subway stop  
Yes, indeed, wanna see 'em bleed, get the mop, mop, mop  
And if some other gang gets the drop, drop, drop?  
We will be there and ready to bop, bop, bop

Wow, we gotta go  
I wanna see them shatter  
Now, now that I've brought down the queen and the crown  
Just wanna be there when it's going down  
Knocking them down  
It's going down  
Burning it down
