

# Love's Gonna Pick You Up

Lin-Manuel Miranda

Yes, I saved you

Huh?

Cuz love saved me

What?

Vivo when you found me  
I was low as I could be

High up!

You picked me up

So high!

And you changed my whole demeanor

Aww

Like a perfect ballerina  
Yes, I found my Valentina

That's me!

I told Valentina 'bout the mission you were on for love

You poor little honeybear, so tired of running  
We're going to get you there

And sweet Valentina said, let's help him from above

So we thought we'd swing by you  
Come and help you with a bird's eye view

Love's gonna pick you up and never put you down

Cool!  
Please stop singing, we're miles away from the ground

Love's gonna kick your butt, and drag you around

Let's help your friend  
Then you and me fly south

You take that road to deliver that love you've found

Where we're going we don't need roads  
We don't need roads

That one set of footprints was love dragging you around

Dragging you around, yeah

Love's gonna pick you up and never put you down

I said love's gonna kick your butt, and drag you around, yeah!
