Tough Crowd

Lin-Manuel Miranda

Woo, tough crowd, nothing I haven't seen before
I'll have to pull up the stops, and give 'em even more
It's tough to play when you're a prey facing a predator
No time to pray, find a way to slay your competitor

So turn up the volume
When they would have you be quiet
As you turn up the rhythm
So they can never deny it

You bounce when it counts
And give as good as you got
'Cause you're not gonna stop
Till they drop and you got 'em in a knot
