

Deep Down (Walk Through Fire)

Lincoln Brewster

I run to You, my heart's in Your hands now
I'm not afraid, with You by my side
I feel Your love, it's burning inside me
Deep down

You draw me close, whenever I reach out
You'll always be, the strength of my life
I know Your hand, will always defend me
Deep down, yeah, deep down

Even when I walk through fire, I won't be burned
I'll set my feet upon Your word
I know Your love will never fail
This I know now
Deep down, deep, deep down

You're calling me, to fully surrender
I trust in You and lay down my pride
I hear Your voice, resounding within me
Deep down, I hear it, deep down

Even when I walk through fire, I won't be burned
I'll set my feet upon Your word
I know Your love will never fail
This I know now
Deep down, deep, deep down

I'll walk by faith, I'll stand on Your truth
You are my hope so, I'll hold on to You
Your Spirit is with me and I feel You now
Deep down
Even when I walk through fire
Even when I walk through fire

Even when I walk through fire, I won't be burned
I'll set my feet upon Your word
I know Your love will never fail
This I know now
Even when I walk through fire, I won't be burned
I'll set my feet upon Your word
I know Your love will never fail
This I know now
Deep down, deep, deep down

Deep, deep down
Deep, deep down
Deep, deep down
