

Every Little Thing

Linda Eder

It's hard to believe, this could be happening to me
I've never felt like this before
I was so unprepared to be floating on air
So high above the floor
But here we are and I know it's true
I've found forever in you

From this moment on, I'll be with you
Till the end of the time, I'll be yours
From this moment on two hearts become one
I'm gonna love you from this moment on

To choose from the rest, surely I wasn't the best
About a million to one
For a chance to be yours, I would gladly endure
A million nights alone
Each time I look in your eyes
I know what loves all about

From this moment on, I'll be with you
Till the end of the time, I'll be yours
From this moment on two hearts become one
I'm gonna love you from this moment on I only wanted your love
Only your heart for all time
I only wanted to feel you in my arms
For the rest of my life

From this moment on, I'll be with you
Till the end of the time, I'll be yours
From this moment on two hearts become one
I'm gonna love you from this moment on
I'm gonna love you from this moment on

Starting here, starting now
You will have my love forever
From this moment on
Starting here, starting now
You and I will be together
From this moment on

Starting here, starting now
You will have my love forever
From this moment on
Starting here, starting now
You and I will be together
From this moment on
