

# The Light Comes From Within

Linda McCartney

You say I'm lazy  
You say I don't fit  
Yakes one to know one  
You make me sick  
You say I'm simple  
You say I'm a hick  
You're fucking no one  
You stupid dick  
Oppression won't win  
The light comes from within  
I need a sense of cause  
I wanna smell the flowers  
You need complete control  
You wanna build more towers  
You try to change me if you could  
I see the trees, you saw the wood  
You say I'm different  
You say we don't click  
I say you're crazy  
You make me sick  
I say you're greedy because you scheme  
You say I'm foolish because I dream  
Oppression won't win  
The light comes from within  
I need a sense of cause  
I wanna smell the flowers  
You need complete control  
You wanna build more towers  
I say you're greedy because you scheme  
You say I'm foolish because I dream  
Oppression won't win  
The light comes from within
