

# Bring Down The Government

Lindisfarne

Bring down the government, bring it to its heel  
sure it a hoot when they prosecute you for doing what you feel.  
Bring down the government, bring it to its knees,  
if you want your rights you're gonna have to fight,  
so bring down the government please.

Bring down the government, bring it down for fun  
God only knows they've had their time, it's about time it was d  
one.  
So bring down the government, get them on the run,  
we'll bake their heads to ginger bread,  
and eat them one by one.

Bring down the government, do it now for love,  
do it for your mother and sister too and do for God above.  
So roll on my brothers we can find out how,  
to walk hand in hand to the promised land,  
if we bring down the government now.  
Bring down the government now  
Bring down the government now  
Bring down the government now
