

Roll On That Day

Lindisfarne

One day I know the way before us will be clear,
All life divides us now will fade and disappear.
One day I know as sure as morning follows night,
We walk together from the darkness to the light.
Brothers and sisters joining hands along the way,
Change got to come and I say, roll on that day.

Chorus:

Roll on that day I say now,
Roll on that day.
Change got to come and I say,
Roll on that day.

For all the cold and lonely, hungry and unborn,
See that their darkest hour is just before the dawn.
And I see a bright new morning lighting up the way,
Change got to come and I say roll on that day.

(Chorus)

I see a bright new morning lighting up the way,
Change got to come and I say, roll on that day.

(Chorus x5 to fade)
