

Wake Up Little Sister

Lindisfarne

Wake up little sister, tell me what you've got
I can see your dreaming quite a lot.
And if the sun is shining we can make it to the top
Wake up little sister and tell me what is and what is not.
Wake up little dreamer, you been dreaming too long
I can feel your heartbeat like a song.
With you beside me I can feel both, gentle and strong
Wake up little dreamer and tell me what's right and what is wrong.
Wake up little sister, help me through the night
we got to make it, got to make it alright.
And in the morning when we have to say goodnight
We'll say hello I know and walk off in to the light.
And in the morning when we have to say goodnight
We'll say hello I know and walk off in to the light.
And if the sun is shining we can make it to the top
Wake up little sister and tell me what is and what is not.
