

get overR you

Lindsay Ell

I walked away with tears running down my face
You say you don't know why, but it had to be this way
And now every time you call
Just to say we shouldn't talk
Deep down I know that things ain't gonna change

You said go to therapy and I did and it helped
But now from the bottom of my heart, I wish you well, but

Get over yourself
Get over yourself
I know what I want
And it used to be you
You said to move on and I did
Now it's your turn to
Get over you

You say you think that we should try to be friends
But every time I try you think I'm leaning in
Just 'cause I loved what we had
Don't mean I want it back
If you think I'd put myself through that again, well

Get over yourself
Get over yourself
I know what I want
And it used to be you
You said to move on and I did
Now it's your turn to
Get over you

You said go to therapy and I did and it helped
And now from the bottom of my heart, I wish you well, but
Get over yourself

Get over yourself
Get over yourself
I know what I want
And it used to be you
You said to move on and I did
Now it's your turn to
Get over you
