

# Wildfire

Lindsay Ell

If I could do it all again  
I wouldn't change a single thing  
I'd still brake before a bend  
And might have saw me learn to sing about it  
Give away my heart  
To someone else who didn't care about it  
Skip the tattoo about you  
And learn to live without it

Wear all my mistakes  
If that is what it takes  
It makes you a fighter  
Makes your heart go higher  
Run like a tiger  
Love like that don't need a match  
Just watch it catch like wildfire  
Wildfire

You do you, couldn't fake it if you wanted to  
When nobody ever gonna do it any better  
Don't listen to 'em when they try and tell you what you can't do  
They're just jealous of your Joan Jett letter

Keep all my mistakes  
If that is what it takes  
It makes you a fighter  
Makes your heart go higher  
Run like a tiger  
Love like that don't need a match  
Just watch it catch like wildfire

And I won't decide, oh  
Don't matter which way the sun goes  
It'll never leave you alone  
It goes wherever you go

It makes you a fighter  
Makes your heart go higher  
Run like a tiger  
Love like that don't need a match  
Just watch it catch like wildfire  
Like wildfire  
Catch it like wildfire
