

Stars Are Crazy

Lindsey Buckingham

I woke up in the middle of the night
With you on my mind
With you on my mind
I can't see you any more
But it don't mean I'm blind

Sometimes we fantasise
Wondering if we could've tried
Wondering if we died
Wondering if the stars are crazy
Stars are crazy

Sometimes we analyse
Almost apologise
Pretending we didn't die
Wondering if the stars are crazy
Stars are crazy

I wake up in the middle of the night
With you in my heart
With you in my heart
I can't touch you any more
It causes you harm

Sometimes we fantasise
Wondering if we could've tried
Wondering if we died
Wondering if the stars are crazy
Stars are crazy

Sometimes we analyse
Almost apologise
Pretending we didn't die
Wondering if the stars are crazy
Stars are crazy

Sometimes we close our eyes
Dreaming about the prize
Wondering what to buy
Wondering if the stars are crazy
Stars are crazy
