

Foreverglow

Lindsey Stirling

Starry night
Speck of white
Would you know you're made of light

If you were born into the dark?

Did you know?
Down below
World beyond would see you glow
Long, long after you're gone

Your shine won't last forever
But you'll forever glow
Your shine won't last forever
But you'll forever glow
Your shine won't last forever
But you'll forever glow

Starry night
Speck of white
Would you know you're made of light
If you were born into the dark?

Did you know?
Down below
World beyond would see you're glow
Long, long after you're gone

Your shine won't last forever
But you'll forever glow
Your shine won't last forever
But you'll forever glow
Your shine won't last forever
But you'll forever glow
