How are you? I want to know
Anything you have, we can make it new

Give it time, you'll find we'll make it through
Take a breath, one step is all you need to do

Give it time, you'll find we'll make it through
Take a breath, one step is all you need to do

Take a breath, one step is all you need to do

Give it time, you'll find we'll make it through
Take a breath, one step is all you need to do

Take a breath, one step is all you need to do

Take a breath, one step is all you need to do
