

# EVERYTHING BURNS

Lingua Ignota

Do you want to be in hell with me?  
I know you want to stop but you can't stop  
I've watched you alone  
In the home where you live with your family  
The one thing I've learned is everything burns

Do you want to be in Hell with me?  
I wish things could be any other way  
I've watched you alone  
In the home where you live with your family  
But one thing I've learned is everything burns

Do you want to be in Hell with me?  
I know you want to stop but you can't stop  
I've watched you alone  
In the home where you live with your family  
And all that I've learned is everything burns
