

# Clothes

Lio

Sometimes I wake up in the morning, think I just cannot go on  
I'd rather pull the blankets over me and sleep another day  
But as I toss and turn I see, what's staring right into my eyes  
My closet gives me strength to live another day, another day

Clothes, yeah, I love the haute couture  
Clothes, they make me so mature  
Clothes, they are worn most everyplace  
Clothes, they can hide an ugly face

Some don't like them if they're bright  
Polyester is alright  
And be sure the label shows  
It really makes the clothes

Clothes (clothes), they cover all you got  
Clothes (clothes), they keep you cold and hot  
Clothes (clothes), the designer tells no lies  
Clothes (clothes), they attract the handsome guys

The spring collection's fine  
Today I'm buying mine  
And if the label shows  
I surely love the clothes

Clothes (clothes), woo oo oo ooo  
Clothes (clothes), woo oo oo ooo

I start my own boutique  
I think my day's très chic  
And if my label shows  
I sell a lot of clothes
