

Cosmic Wind

Lion Babe

(Hey Baby...)
Can I Talk To You...?
(Something's on your mind)
I think I need you to tell me
(Tell me, yeah)

(Hey Baby...)
(Something's on your mind)
Whatchu wanna do
(Tell me, yeah)

Tell me how you talk, how you really talk
Show me how you walk, how you really walk
Everyday we stay up on
Everybody take it off
Never gonna stop, never gonna stop
Give it all I got, catch me at the top
Don't let them step on it, don't let them step on it

Tell me what you want
Something's on your mind
Tell me what you want
Something's on your mind

Hey baby, hey baby
(Something's on your mind)
(Somethin...)
Hey baby, hey baby
(Something's on your mind)

I'm lean, I'm rock
Been making shit in my smock
I crop my top, all season long I'm too hot
I'm poppin corn in my pot, I'm movin to a new spot
I feel a lot, so much but never can stop
The love we got, can't wait for this to take off
I know a place where you could get lost
We frontin all the cost, so feminine the big boss
So tell me let me know, tell me what you know

Tell me what you want
Something's on your mind
Tell me what you want
Something's on your mind

Creation
Preservation
And Destruction
Breathe
Open your arms
Fall all over again
Cosmic Wind

(Okay, okay, okay...)
