

# Don't Break My Heart

Lion Babe

Baby baby  
A baby  
Don't break my heart

Will you come and save me?  
Wanna be your lady  
Give me love, amaze me  
Baby, I feel  
Kiss you in the evening  
Hug you in the morning  
Have you thinking god damn  
We're out of control

Baby baby  
A baby  
Don't break my heart

You know I've been feeling  
Like this is the beginning  
Wanna know you love me  
Like you say you do  
Risking you say no  
There is a no you never know  
What broke me once before  
(I can't go for less)

What I feel won't go away  
So you better be here to stay  
I want to fall this heart as bricks  
So don't pull tricks on me  
When I get down  
You breaks me inside  
Be mine..

Let me love you  
Like I want to  
Let me love you  
Like I want to  
Like I want to  
Cause I need you

A baby  
A baby baby  
Ey baby boy  
You drive me crazy out of my head  
I can't just be your friend  
So I have to make you understand  
What I want from you  
What I need from you  
What is gonna be  
What you want from me  
Okay?
