

Going Through It

Lion Babe

Yooo
Yooo
I'm going through it
We're going through it
Oooh
Oooh
Try not to lose it
We're gonna do it, what you say?

Hard to sleep, no one has enough
Bang bang, tweet tweet, isn't natural
Pain and mercy going back and forth
Up against the wall, insatiable
Hard to say when we lost control
Continue to seek the invisible
Look at that, ahead
Ahead, uh

Yooo
Yooo
I'm going through it
We're going through it
Oooh
Oooh
Try not to lose it
We're gonna do it, what you say?

We can let it fall away
(We can let it fall away)
We can learn from our mistakes
(We can learn from our mistakes)
We can find another way
(We can find another way)
We can change the human race

Oh it's flowing over
And I don't believe it
Oh we conceived it
What an important moment
A call to perceive with
In this new reality
Are you with me, 'cause I want to know

Yooo
Yooo
I'm going through it
We're going through it
Oooh
Oooh
Try not to lose it
We're gonna do it, what you say?

We can let it fall away
(We can let it fall away)
We can learn from our mistakes
(We can learn from our mistakes)
We can find another way

(We can find another way)
We can change the human race
