

Never Before

Lion Babe

Before you wake up, before we make up
Ignore me like that, oh why you do that?
Before you make up the same old story

Never get a day, never get away
Middle of the night, I'm not next to you
Never see your face, never have place
Can we get away? I been wanting to

So what's the move?
(What is it, what is it)
I'm in the mood
(I'm in it, I'm in it)
Before you lose
(Before, before, before)
You should choose

Before you wake up, before we make love
Adore me like that, oh I could use that
Before you take up my territory

Never get a day, never get away
Middle of the night, I'm not next to you
Never see your face, never have place
Can we get away? I been wanting too

So what's the move?
(What is it, what is it)
I'm in the mood
(I'm in it, I'm in it)
Before you lose
(Before, before, before)
You should choose

I'm gonna sip slow, with my eyes closed
I can feel more when I let it flow
If you need me, always there for you

So what's the move?
(What is it, what is it)
I'm in the mood
(I'm in it, I'm in it)
Before you lose
(Before, before, before)
You should choose

So what's the move?
(What is it, what is it)
I'm in the mood
(I'm in it, I'm in it)
Before you lose
(Before, before, before)
You should choose
