# No Rules

**Lion Babe**

You tell me all of the things I gotta do
And I let you know if I feel the same or if we're through
You said "nah nah nah", I said "blah blah blah"
Is that really what you want when it all falls down

When they say you're not working
That it's just one way to be
I don't need to be sorry
What they saying ain't for me

No rules though, no rules though
No rules, no rules, no, oh
Don't need no, don't need no
Don't need 'em baby

Don't wanna play all the games you put me through
Always pointing out a detail to change the way I do
You say "no no no", I say "why why why"
You can break 'em if you want, watch em all fall down

When they say you're not working
That it's just one way to be
I don't need to be sorry
What they saying ain't for me

No rules though, no rules though
No rules, no rules, no, oh
Don't need no, don't need no
Don't need 'em baby

No rules, no rules, no...
