

Rockets

Lion Babe

We live, we live
We live, we live young

Fly high like I'm NASA
Pull my hips like the salsa
I'm like butter on a lobster
We live, we live
Got me singin' like I'm Chaka
Ooh I'm workin' in mi casa
Young queen Cleopatra

We live, we live
We live, we live young
We live, we live
We live, we live young

All these spaceships and rockets (high)
Got me feelin' high (high)
On my spaceship I'm rockin' (high)
Fall into the sky (high)
Fall into the sky
Fall into the sky
Fall into the sky
Fall into the sky

Congo, wear my rasta
Merengue with a lobster
We eat fishes with the pasta
We live, we live
Been feelin' like a popstar
Heavy drinks, I'm a rockstar
The young king with the roadster

We live, we live
We live, we live young
We live, we live
We live, we live young

All these spaceships and rockets (high)
Got me feelin' high (high)
On my spaceship I'm rockin' (high)
Fall into the sky (high)
Fall into the sky
Fall into the sky
Fall into the sky
Fall into the sky

We live, we live
High, high
High, high
I just want y'all to chill to record
We live, we live young
Sip to this
We live, we live
Hit a spliff to this
We live, we live young
Sex and [?] to this

We live, we live
We live, we live young
We live, we live
We live, we live young
All these spaceships and rockets
High, high
High, high
