

The Wave

Lion Babe

Everybody's moving through the wave
Let's go, oh, let's go
Everybody's moving through the wave
Let's go, oh, let's go

Stay awake, you don't need no sleep when I take it off, oh
Tell you what, no I like it rough, when you take all of my weight off
Stop it, take your time and put it all on me
'Cause you're looking real nice, swinging it around tonight
On and on and we're not feeling but this beat
In the light, show me how you're doing tonight
Oh, what you doing?

Everybody's moving through the wave
Let's go, oh, let's go
Everybody's moving through the wave
Let's go, oh, let's go

Alright bring my body up
Anyway you want, shake what you got
All night long, stop, set it off
Barely hanging on, just step to the back

All the ladies, cut waist
[?] 'cause your on the fast train
Next stop, no love, more bass
Emotion pain, tell 'em bring 'em by the case
'Cause we up all night long, poker face
Like I ain't gotta get up to go to the workplace
Just me, and my folks, in the zone
Waist line Dior, [?]
Stop down for a sec, ain't coming to my phone
No matter where I'm at, and it still going on
My cousin beeping, tell that boy "Hold on"
Then I hung up on them both when Ferg came on
Feel the thunder in the bassline, bassline
Ladies drink before what time?
What time?
One time for the slow ones
We letting everybody in from the club 9
Let's go

Everybody's moving through the wave
Let's go, oh, let's go
Everybody's moving through the wave
Let's go, oh, let's go

Alright bring my body up
Anyway you want, shake what you got
All night long, stop, set it off
Barely hanging on, step to the back
Step back

Time to bow down
Yeah, to the waist
Burn, burn, burn, yeah
Moving to the wave

Oh, ooh, oh
Move
