

When I Told You I Loved You

Lion Babe

If you didn't know, now you know
If you didn't know, now you know

When I told you I loved you, I was for real
When I told you I loved you, I was for real

I told you I loved you, you know that I do
I don't wanna bug you, but I'm so confused
See I'm trying to tell you, trying to tell you, how I really feel
And now you upset me, when you used to take me, and I just can't forget it

Don't look back, just go forward with me
Just go to our future

When I told you I loved you, I was for real
When I told you I loved you, I was for real

What can I say about me, I'm not the one to beg for two
Not really thinking that we should part ways, but I'm gon' need the rest from you
Don't you get it? We could make it
I forgive you, forgive me too, just do it

Ohhh, I say
When I told you I loved you, I was for real
I will go and wait for you
I will go and wait for you
I will go and wait for you

When I told you I loved you, I was for real
Wasn't about to let you sit around and let me down and
Walk away

When I told you I loved you, I was for real
I will go and wait for you, I will go and wait for you
I will go and wait for you, for you, for you

Told you I loved you, told you I loved you, yeah, told
