

I Wanna Take You Down

Lionel Richie

I wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you

Mood's right for love
And you're the one
Let's just stand for a while, for a while
Let's go down

Let's go deep undercover
Get into each other
I'll let you choose the style
And this time, take you down

(Wanna take you down)
I wanna love you, baby, like nobody ever loved you before
(Wanna take you down)
Gonna love you, baby, love you, baby, love

I wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down

Oh, don't move fast
Keep it slow, baby, make it last
Oh, 'cause I feel so around, so around
Take you down, take you down, take you down

(Wanna take you down)
I wanna love you, baby, like nobody's ever loved you before
(Wanna take you down)
Wanna love you, baby, love you baby, love

I wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you

Get down, get dirty
My love makes me go, sweet love
Don't you know?
Oh, I've been ready

(Wanna take you down)
Let me love you, baby, like nobody's ever loved you before
(Wanna take you down)
Real, real good, baby
(Wanna take you down)
I wanna love you, I wanna love you, wanna love you, baby

I wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you

Tell me, tell me, tell me how you feel, baby
Oh, my baby, my baby, my baby
Yeah, tell me, tell me how you feel, oh yeah
Oh, feel good to me, yeah

I wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you down
Wanna take you down, wanna take you
