

# Wasteland

Lionheart

A wasteland filled with the scum and the shit  
Degenerate motherfuckers living in piss  
A cocked out slut with a mouthful of dick  
Get the fuck out my face, I don't think so bitch  
This is a wasteland for all the scum and the shit

Burn this place to the ground

A wasteland filled with filth and decay  
An ugly fucking cess-pool of every thing I hate  
So with my eyes to the sky say goodbye to this place  
So long to the past it was never needed anyway  
This is a wasteland for all the filth and decay

Burn this place to the ground  
Set this shit off one more time around  
Set it off

Set it off  
On everything you hate  
Set it off  
Never look back  
Set it off  
Turn and walk away  
Set it off  
Never look back  
Set it off
