

## With Honor

Lionheart

Been through hell and back  
And you pulled me out alive  
Showed me the strength  
I never knew I had inside  
Through thick and thin, you never gave up  
My only hero, till the day I die

And it's you  
The only one who never gave up on me  
And it's you  
The only one who ever believed in me

It's with honor  
I owe you everything  
It's with honor  
I owe you everything  
It's with honor  
It's with honor

Though we never had it all  
We always had enough  
You made sure of that  
No matter what it took  
You never let us see you cry  
Even though you were broken, beaten and tried

And it's you  
The only reason we survived  
And it's you  
The only reason I'm still alive

It's with honor  
I owe you everything  
It's with honor  
I owe you everything  
It's with honor  
It's with honor

A lifetime of struggle  
A heart full of pain  
You gave so much  
And never asked for a goddamn thing  
I know you hurt  
I know it's hard  
You've always been there  
And it's been that way from the start

Through thick and thin  
Through hell and back

And with a broken back  
And with a beat down soul  
Shoulders crushed to the bone  
By the weight of the world
