Power
Power, power, power
Power
Power, power, power

He arrives and they're waitin'
'Cause they've been anticipatin'
As the man takes the spot
And the crowd is gettin' hot
And the group searches in
As the records start to spin
He can make them shift their gears
With a poundin' in the ears, he's got

Power
Power, power, power
Power
Power, power, power

Start to movin' with the rhythm
Now he's got two people with him
And the force filled with fire
As the crowd is gettin' higher
He gives them rhythm, gives them moves
Gets them movin' in their shoes
Gets them rockin', gets them reelin'
Gets them dancin' to the ceilin'

He's got it, oh baby, now he's got it (powerful people)
He's got it, oh baby, now he's got it
He's got it, oh baby, now he's got it (powerful people)
He's got it, oh baby, now he's got it

Power
Power, power, power
Power
Power, power, power

And they move in our direction
As we're watching their reflection
He takes your body, takes your soul
He can make you lose control
He's a devil, he's a demon
He can set your body screamin'
He's a god, he's a spirit
It's so wonderful to hear it

He's got it, oh baby, now he's got it (powerful people)
He's got it, ooh that man he's got to me, he's got it
He's got it, oh baby, now he's got it (powerful people)
He's got it, the power, he's got it, he's got it

He's got the power
Power, power, power
Power
Power, power, power
