

## Things Take Time

Lipps, Inc.

Things take time  
Time to grow  
Time to find out all the things I need to know

I can wait  
Wait for you  
To do all the things you need to do

I understand  
Await your hand  
When you have decided to come home to me  
So I will wait  
Anticipate  
The moment you come walking through the door  
Back once more  
Back once more

I will be  
Here for you  
When you've found that no one else can see you through

I know, I know, I know that I was wrong  
But now I see  
What leaving you has done to me

I felt afraid  
That's why I've stayed away  
Longer than I've wanted to, so true  
But now I'm home (oh, baby)  
And we're alone together  
This is just how it should be

You and me, you and me  
Things take time (I know, I know)  
Things take time  
Things take time
