Easy

Push your body back Start your vinyl track This faultless work is pulchritudinous The whole place starts to quake The dancing bean awakes You all need it, you you all need it

I got it right back, got it right back, got it right back I got it right back, got it right back, got it right back

The night is drawing near Shake it keep it clear What you want what you want I never disappear She lit a cigarette I lost my taste for it You move dirty, dirty, dirty, dirty

And I like it like that, got it right back, got it right back And I got it right back, got it right back, got it right back

(There's a dirt beat [?] in a black hole bar)
It's easy, it's easy
(And we bring the noisy kickin' beat to that floor)
It's easy, it's easy
(There's a dirt beat [?] in a black hole bar)
It's easy, it's easy
(And we bring the noisy kickin' beat to that floor)

Start the second track Push electric back You're so pretty, pretty, pretty, pretty There's nothing left to say She burned my head away We all need it, we, we all need it

And I got it right back, got it right back, got it right back And I got it right back, got it right back, got it right back

(There's a dirt beat [?] in a black hole bar)
It's easy, it's easy
(And we bring the noisy kickin' beat to that floor)
It's easy, it's easy
(There's a dirt beat [?] in a black hole bar)
It's easy, it's easy
(And we bring the noisy kickin' beat to that floor)
