

Crazy

Lisa Lois

You
You must have put a spell on me baby
Cause I
I can't get you out of my mind
No mattter if it's night or day
I might be asleep or wide awake
The thought of you is bugging me
All of the time
I find talking a struggle
So pur me a double
Cause I've got something to say baby
I'm about to shout if rom the rooftops
I got it written allover my face
I'm done holding back I'm pulling out all stops
I'll take a leap of fait
So I'm ready if you're ready
So come with me if you're with me
I might as well shout if from the rooftops
Cause i'm so in love, it's crazy
You know I try
I try not to dream about you
But I just can't help wondering
If you feel the same
If I keep it locked inside
This love is gonna eat me alive
Oh I can't wait to feel your touch again
I'm hiding a secret
But how am I gonna keep it
When all I ever think about is letting you know
I'm about to shout if rom the rooftops
I got it written allover my face
I'm done holding back I'm pulling out all stops
I'll take a leap of fait
So I'm ready if you're ready
So come with me if you're with me
I might as well shout if from the rooftops
Cause i'm so in love, it's crazy
I could never get enough of you
It's crazy
Just look at what a little love can do
It's crazy
To think that I was all alone
And then you saved me
I'm about to shout if rom the rooftops
I got it written allover my face
I'm done holding back I'm pulling out all stops
I'll take a leap of fait
So I'm ready if you're ready
So come with me if you're with me
I might as well shout if out from the rooftops
Cause i'm so in love, it's crazy
I might as well shout if out from the rooftops
I got it written allover my face
I'm done holding back I'm pulling out all stops
I'll take a leap of fait
So I'm ready if you're ready
So come with me if you're with me

I might as well shout if out from the rooftops
Cause i'm so in love, it's crazy
