

# Out Of My Life

Lisa Maffia

Just go just go  
Walk out of my life  
walk out my life boy just go  
don't need you no more (no more)

walk out of my life

All you want is my money my house and my car  
all you want is my life if I open up the door  
I got the key to my success  
you all can't stop me I'm just too far ahead  
there's no time wastin' I got too far to go  
my boys are behind me they'll always be there  
I had to show them I couldn't keep on cryin'  
I saw you kissin' that girl with the curly hair  
Boy don't deny that girl my friends were there  
I could've left with someone don't worry who  
But he would treat me better, better than you  
That's why I don't need no one, no one like you

Look what ya done boy  
broke your heart  
There's no more love here don't ya see  
I'll be fine, young and free  
There's so much more ahead just for me  
I don't rely on no one to keep me happy  
I'll carry on and hope that we never meet  
I'll have to stop this  
I've gotta keep on fightin'  
My money will pay for me  
OK with me
